BEAUREGARD VINEYARDS

BONNY DOON | SANTA CRUZ MOUNTAINS

For five generations, the Beauregard family has been part of the agricultural and winemaking history of the Santa Cruz Mountains. The family first put down roots in the region in 1889, with Beauregard Vineyards established in Bonny Doon in 1945. Today, the family continues that legacy with a philosophy centered around terroir, producing small-production wines that reflect the land and climate where their grapes are grown. Our relationship with Beauregard goes beyond simply pouring their wines at Cascade. Together, Beauregard and Costanoa created our signature red — a custom Zinfandel blend grown and produced by Beauregard and bottled exclusively for Costanoa. The bottle carries both names, representing a collaboration that connects our wine program directly to one of the Santa Cruz Mountains' longtime winegrowing families. It's a partnership that reflects what local sourcing means to us: building relationships with the people who grow and produce what we serve and giving our guests a true taste of the surrounding region.

Grown in the Santa Cruz Mountains. Made by Beauregard. Poured at Costanoa.
